WHO
WE
ARE

The Robert Schuman Institute (RSI) is the European educational center for politicians and parties belonging to the political family of the European People's Party (EPP).

While many EPP parties have their own foundations and training institutions, RSI is unique in focusing on the European level. Our seminars, trainings and study visits involve participants, speakers and cooperation partners from several countries.

DORIS PACK

RSI President

Together we invest in training young leaders, credible and capable politicians of the future, and in building a strong and stable Europe based on the rule of law.
